EDUCATION

Indian Institute of Information Technology, Jabalpur
Bachelor of Technology

Aug 2023 - May 2027
Jabalpur, Madhya Pradesh

TECHNICAL SKILLS

Languages: Python, SQL

Frontend: HTML, CSS, JavaScript, React.js

Backend: Django, Celery

Databases & Caching: MySQL, PostgreSQL, MongoDB, Redis

LLM & GenAI: OpenAI API, Gemini API, Embeddings, ChromaDB, RAG, LangChain

APIs & Real-Time: RESTful APIs, WebSockets

Security & Authentication: JWT (JSON Web Tokens), Session-Based Authentication, OAuth 2.0

DevOps & Tools: Git, GitHub, Docker, Postman

Computer Fundamentals: Data Structures & Algorithms, OOP, LLD, DBMS, Operating Systems, Computer Networks

PROJECTS

Preplate | Django, PostgreSQL, Redis, RabbitMQ, Celery, Next.js | [GitHub](#)

- Designed a scheduled food-ordering platform to replace manual WhatsApp ordering, targeting vendors processing **50+ orders/day** with zero demand-forecasting or payment tracking.
- Architected a modular monolith backend using Django, PostgreSQL, Redis, RabbitMQ, and Celery, supporting asynchronous processing for **50+ concurrent orders/day** per vendor.
- Implemented OTP-based authentication, RBAC, cart management, and an order lifecycle state machine with PIN verification, eliminating manual screenshot-based payment checks.
- Built real-time order tracking with Django Channels and WebSockets, enabling instant status updates and cutting manual order-coordination effort by **~2 hrs/day** per vendor.

ChatApp | Python, Django, Celery, PostgreSQL, WebSockets, JWT, Docker | [GitHub](#)

- Built a **real-time chat app** using **Django**, **DRF**, and **Django Channels**, supporting direct messaging and group conversations for multiple concurrent rooms.
- Implemented **JWT authentication** with **email OTP verification**, securing registration and login workflows against unauthorized access.
- Integrated **WebSockets** for instant message delivery and **presence tracking**, load-tested with **30+ concurrent connections**.
- Used **PostgreSQL** for persistent storage and **Celery** for async task processing, enabling scalable handling of **concurrent chat sessions**.

ACHIEVEMENTS & CERTIFICATIONS

- Solved **650+ DSA problems** across LeetCode, Codeforces, CodeChef, GeeksforGeeks, and takeUforward
- LeetCode**: Knight (Rating 1850+)
- Codeforces**: Pupil Rank (Rating 1300+)
- CodeChef**: 3 Star Rated Programmer (Rating 1600+)

LEADERSHIP & EXTRACURRICULAR

- Team Lead** – Led teams of 5 and 6 members in the PR and DFP academic projects, managing planning, execution, task allocation, and project deliverables while fostering collaboration and accountability.
- Core Member, Astronomy and Physics Society (APS)** – Contributed to organizing astronomy and physics events and workshops.
